DULLNESS SHOWN IN STOCK SALES

War News Has Been Discouraged and Wall Street Waits.

NEW YORK, Aug. 16.—The stock market Monday resumed its recent dull and tortuous course, the foreign situation and further movement of funds from this point to agricultural centers serving as the chief deterrents to any constructive efforts.

A Common Scene in Any Oil Field

Oil fires will be a thing of the past when people have become educated to the merits of the FIRE PROOF TANK, built and controlled by the SAFETY OIL TANK COMPANY, of Oklahoma City

Millions of dollars worth of oil is burned up annually by reason of it being stored away in tanks that are not FIRE-PROOF. To prove to the skeptical that we KNOW we have a real FIRE-PROOF tank, we will offer \$1000.00 to any man who will be successful in setting the contents of one of our tanks on fire.

The introduction of this FIRE-PROOF ROOF into the oil fields will mean much. Some of the benefits we mention: 1st. In view of the fact that it CANNOT BE SET ON FIRE we see no need of insurance, thereby saving thousands annually in insurance alone.
